Project Summary	The eIntern will contribute one or two articles a month to A Bureau Connect, along with a round-up of news related to the Bureau of Administration's mission and core activities. {Terry Liu assigned to project.}
Country	United States

## Project Description

We need you to help us tell the stories of our large, wide-ranging bureau! A Bureau Connect aims to connect the nearly 2,000 members of our diverse bureau with each other and with our customers in other bureaus. We use the blog to inform our A Bureau colleagues and our customers about new initiatives, give status updates, and provide a forum for exchanging ideas.

Our bureau supports diplomacy around the globe. We are the foundation of all management operations, and we shape the Department's management policy and service platforms at all levels. We need you to help us get the word out about the global reach of our work – how we improve the Department's environmental performance; manage the flow of information; provide expertise in logistics, operations, language or IT services, among many other functions. You'll write and pitch stories and keep our community up to date with news on administrative matters across the Department, the federal government, and beyond.

(Ideal) number of students to work on project: One, but two if available. We'd love to have more articles and other contributions, including analysis of and advice about our blog's impact.
